

Emulsifier Plates

For Seydelmann®/Konti Kutter®

Ordering Guide: Recommended Thickness Specifications

	Plate Thickness	Distance Ring Thickness
New	0.400" (10 mm)	<u>0.409" (10.5 mm)</u>
Minimum	0.180" (4.5 mm)	<u>0.189" (5.0 mm)</u>

Note: Distance Ring must always be 0.009" / .223 mm thicker than the Stationary Plate.
This ensures proper clearance between the Rotating Plate and the Stationary Plate
