

# Professional Sharpening Service

**PRIME**edge sharpening professionals will restore your bowl grinder plates, bowl chopper blades, slicer blades and specialty machine blades to like-new performance

## Grinder Plates

**PRIME**edge's expertise guarantees clean and cool cutting with all makes of grinder and emulsifier plates and knives, including Comvair plates and rings. Plates and knives are first inspected to detect defects and to ensure that the plates are the proper thickness for safe use. They are then cleaned, sharpened, resurfaced and again, meticulously inspected.

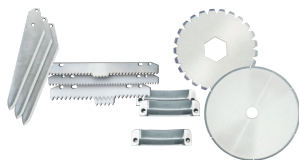

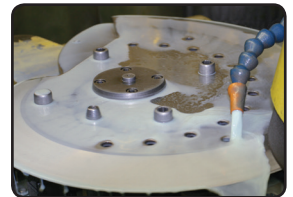

## Bowl Chopper Blades

Our professionals precision-sharpen your chopper blades, Magnaflux them to detect cracks from metal fatigue, polish them to a mirror finish to reduce friction, balance them to eliminate vibration, and then thoroughly inspect them.

## Slicer Blades

We precision-grind all major types of round and involuted slicer blades to the correct specified bevel to ensure proper cutting and stacking. Each blade is then Magnafluxed to detect hidden cracks and other defects, balanced to eliminate vibration and inspected by our Quality Control experts.

## Specialty Machine Blades

**PRIME**edge professionals precision-sharpen your specialty blades, restoring them to like-new condition ensuring optimum performance from your blades.

## Special services

**PRIME**edge's cryogenic treatment super-hardens slicer blades for greater sharpness and durability.

**PRIME**edge's Teflon® coating for slicer blades reduces friction for more accurate stacking.

Call **PRIME**edge Customer Service at- 877-322-EDGE (3343) today for more information about these special services.

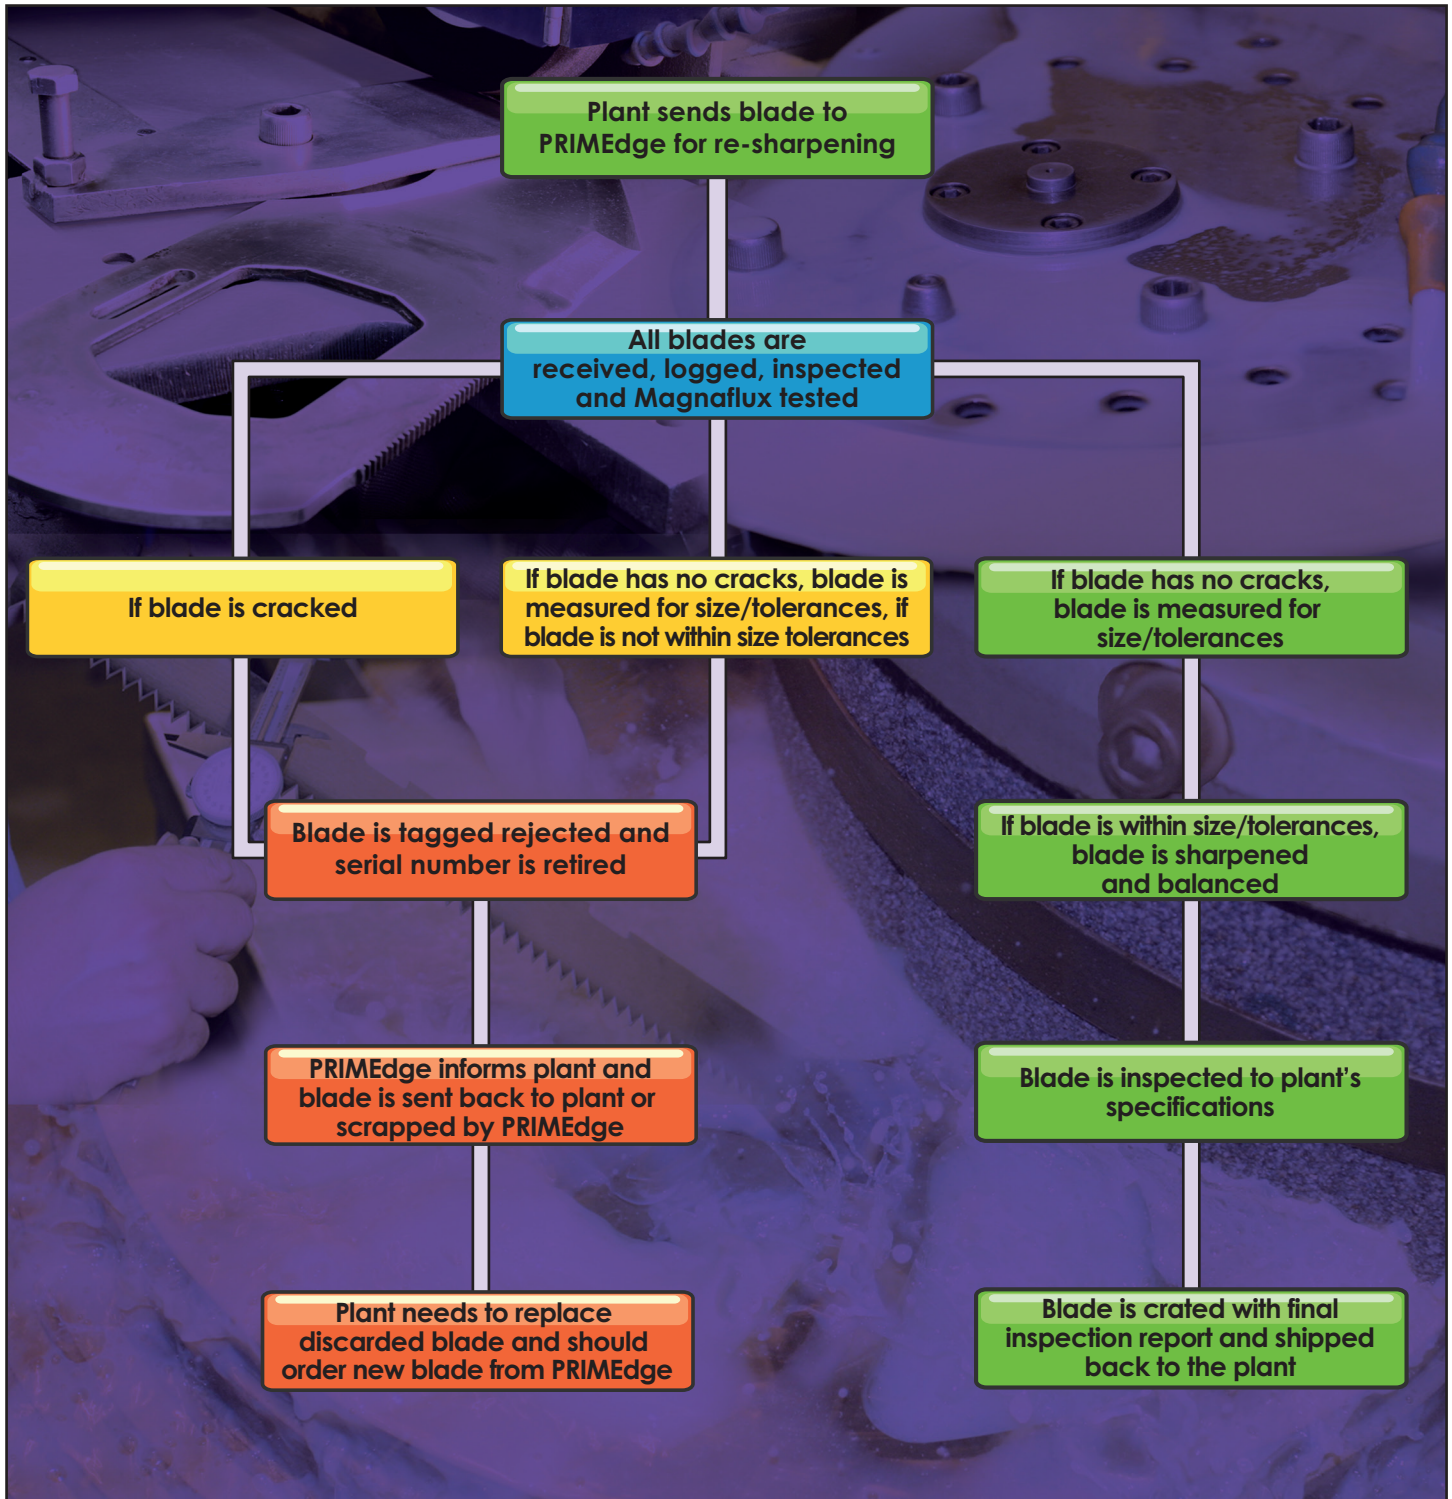

## Specialty blades

**PRIME**edge sharpens and reconditions all types and makes of specialty blades, including:

Poultry	Fish
Spiral ham	Packaging
Film slitter blades	Circular
Straight	Curved
Knife-edge	Scalloped
Toothed	Notched blades
