400
knives per day

Honing Stones with integrated dresser

A Sharp Knife = Increased Productivity, Yields, and Safety

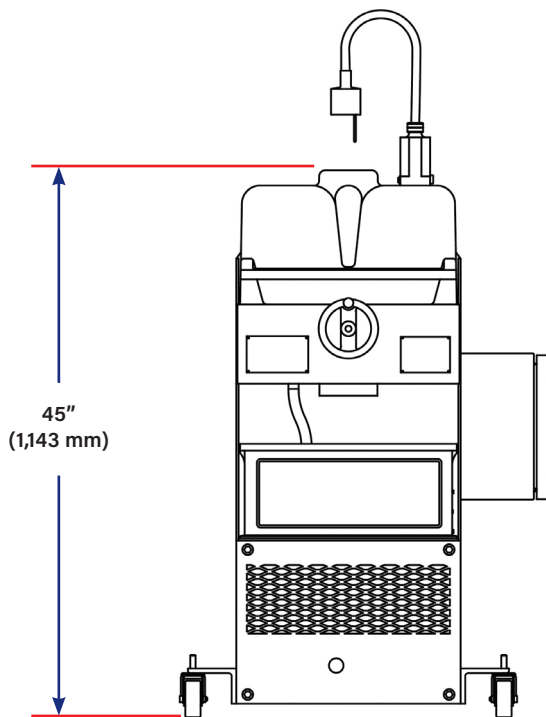

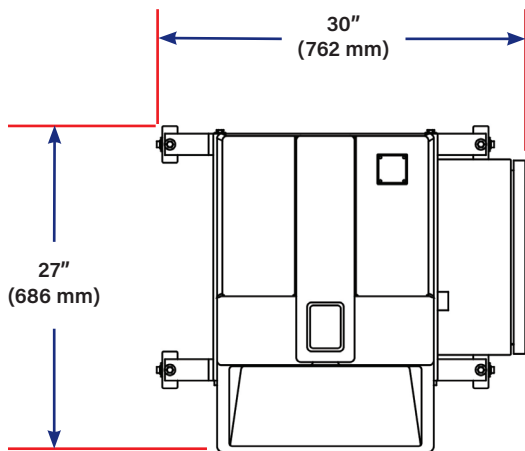

- Ideal for high-volume knife users.
- Unique, spiral-shaped honing/edging stone design ensures consistent, smooth, sharp edges.
- Sharpens knives up to 16" (406 mm) long.
- Recirculating liquid coolant system provides burn-free.
- Integrated stone dressing system maintains roundness of the spiral stones for perfect, consistent, sharp edges.
- After dressing the spiral honing stones, a patented, built-in edge angle compensator automatically adjusts the stones to their original, precise overlapping angle. This unique system assures consistent, sharp edge results.
- CE approved.

PRIMEEdge's unique spiral wheels produce a properly honed long lasting cutting edge.

HE7 Honer/Edger

For efficient, high-volume knife sharpening operations, the PRIMEdge HE7 Honer/Edger provides a consistent V-shaped bevel on every knife edge. When combined with our hollow grinder (HGCU-series unit) as part of a centralized knife sharpening system, sharp knives, increased productivity and decreased ergonomic problems are assured.

The ergonomic design of the HE7 provides operator comfort and safety. An adjustable, pivoting lamp can be oriented in different positions for excellent visibility while sharpening knives. The sturdy stainless steel body with fiberglass cover provides long life and easy maintenance access.

For a consistent and precise cutting edge every time, trust the proven HE7 Honer/Edger from PRIMEdge.

HE7 Honer/Edger				
Voltage	Frequency	Phase	HP	kW
220V	50 or 60 Hz	1 or 3	1	.75
440V	50 or 60 Hz	3	1	.75
